

Physician Recruitment

Join the largest
independent physician
association in Northern
California.

At Hill Physicians, we partner with practices by providing services to streamline operations, maximize earning potential, and deliver optimal patient care. We negotiate contracts to provide more than a dozen health plans which attracts a diverse patient population. We are proud to offer practices access to an extended professional care team to support patients.

Who we are and where we are

Hill Physicians Medical Group is a physician-owned organization with a legacy of stability and growth. Our network extends from the Bay Area through Nevada County with over 5,600 physicians – and we're still expanding. We prioritize the empowerment of independent physicians by providing programs, services, and technology to help advance physician's skills and enable practice growth.

Becoming a part of our network provides access up to 14 contracted health plans which allows your practice to service a broad population. Our professionals negotiate health plan rates and access to local ancillary services and hospitals. As an independent physician we take on the administrative burden of claim submissions, enabling each practice to focus on delivering personalized care to patients.

Up to 14 Health Plans in 1 Contract

Support for your Patients

We provide a professional team that works in collaboration with physicians to extend care for patients with chronic diseases, assist with complex cases, coordinate social needs, and offer advice with medication management.

- **Nurse Case Managers:** facilitate hospital admissions, discharge, follow-up at home, and oversee patients with chronic or complex conditions
- **Virtual Pharmacists:** assist with medication reconciliation and provide recommendations to reduce out of pocket expenses
- **Health Educators:** offer lifestyle coaching, chronic disease management education, and provide nutrition planning
- **Social Workers:** arrange transportation for those in need and facilitate referrals to community-based resources
- **Health Navigators:** help patients coordinate referrals, screenings and setting up appointments

Support for your Practice

Hill Physicians Medical Group works in partnership with physician practices because we care about your success. We provide tools, services and educational programs.

Operations Support

Dedicated Practice Support Advisors are assigned to each practice. Coaching is available to deliver excellent patient experience and accurate coding.
